Employment History

University of Canberra, Australia

2009 to present

Senior Lecturer, Teaching and Learning Center

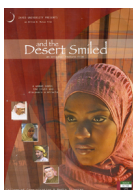

UC Learning Hub

Teaching and Learning spaces at UC

Hothouse 2.0

21 Innovative Teaching and Learning Leaders focussed on Blended Learning

And the desert smiled

First student feature film produced in UAE

- **Associate Director in Learning Environments, inSPIRE** - Seconded to the Faculty of Education for contributions to the design, development and implementation of the National Centre for ICT Pedagogy and Practice (inSPIRE).
- **Learning Space renewal co-ordinator** - Co-ordination and leadership of the learning space renewal project. This includes implementation of a research process to evaluate and guide the re-design of existing learning spaces. This is a 3-5 year project that seeks to embed best practice learning design principals in the fabric of our teaching and learning spaces to affect change in pedagogical practice.
- **The 'Hothouse' program leader** - Leadership of a 'hot-housing' program which supports and develops teams and communities who work on university-wide strategic projects. The hothouse comprises an innovative technology enabled space which is supported with a creative team, comprising of designers, developers and academic support. The hothouse has attracted significant funding and is currently in it's 3rd generation with a 2011 focus on post-graduate renewal.
- **PGHE Online Teaching, Unit convenor** - Convene the Teaching Online unit (TO7600) of the Post Graduate in Higher Education.
- **Staff & Teaching Commons co-ordinator** - Contributed to the grant application for EIF funding for a \$4.2 million refurbishment of learning spaces in the university central hub. Produced the concept brief and AV specifications for architects and contributed to the final design brief. Member of project control group throughout construction and co-ordinating implementation of the new spaces. This includes the installation of IT infrastructure, establishment of student 'rovers' for support and design of usage models.

Zayed University, Dubai, UAE

2003 to 2009

Instructional Designer, Centre for Teaching and Learning

- **Learning Systems Design**- Development and implementation of new learning environments to enrich teaching and learning at the university. This included integrated blog, wiki and social media systems adapted to meet the unique cultural and religious needs of the environment.
- **Strategic Development** - Contribution to university-wide web strategies and learning space development for new campus projects.
- **Instructional Design** - Design of teaching and learning resources, including web content, multimedia, video production and print materials.
